# I've got a few quick questions for you...

If you have a strong desire to boost your client base, tell me if any of these statements sound familiar to you:

*"I work my butt off to market my small business, but I'm still not attracting the type of clients I feel I deserve, and it doesn't seem like all of my hard work is paying off."*

*"I can't afford to pay a marketing expert, graphic designer, SEO guru, and social media manager to help bring exposure to my small business."*

*"How can I create the kind of content that potential clients love and want to share and connect too?"*

*"How can I get my website on the first page of Google, Bing, or Yahoo? I don't understand all of that keyword stuff and how to use it to help my small business."*

*"I'm sooooo frustrated. And, I am sooooo tired of seeing my competitor's business growing, and I know my product or services are equally as good and maybe even better. I see their business plastered all over the Internet and they seem to be doing it right. I just want a break...I just want people to know I offer good, quality products or services, too."*
